

### III. REMARKS

1. Claims 3 and 6 are amended. Applicant appreciates the Examiner's indication of the allowance of claims 7 and 9-15, and indication of allowable subject matter in claims 6 and 8.

2. Claims 6 and 8 are amended to incorporate the subject matter of the claims from which they depend. These claims should now be allowable.

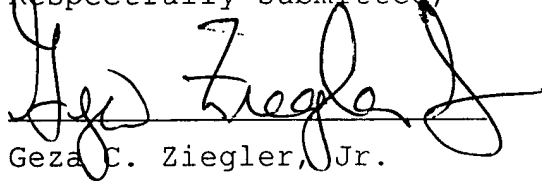

3. Claim 3 is amended to recite that the authentication date is exchanged during a call when a need occurs for an extra secure communication during the call. This is not disclosed or suggested by Chang. Chang does not disclose or suggest the possibility of making mobile station exchange authentication date during a call in a situation where there is a need for exceptionally secure communications (i.e. "extra secure transmission", "extra secure communication", "extra secure call", "extra secure connection", and "extra secure feature.") Thus, claims 3 as amended, is not anticipated by Chang under 35 U.S.C. §102(b). Claims 4 and 5 should be allowable by reason of their dependencies.

For all of the foregoing reasons, it is respectfully submitted that all of the claims now present in the application are clearly novel and patentable over the prior art of record, and are in proper form for allowance. Accordingly, favorable reconsideration and allowance is respectfully requested. Should any unresolved issues remain, the Examiner is invited to call Applicants' attorney at the telephone number indicated below.

A check in the amount of \$910.00 is enclosed for a one-month extension of time and the Request for Continued Examination fee. The Commissioner is hereby authorized to charge payment for any

fees associated with this communication or credit any over payment to Deposit Account No. 16-1350.

Respectfully submitted,
